

Kodi

MySQL DB Backup Script

```
#!/bin/bash
# Database credentials
user="username"
password="password"
host="localhost"
db_name="dbname"
# Other options
backup_path="/DB/DB_Backup"
date=$(date +"%d-%b-%Y")
# Set default file permissions
umask 177
# Dump database into SQL file
mysqldump --user=$user --password=$password --host=$host $db_name >$ba
ckup_path/$db_name-$date.sql

# Delete files older than 30 days
find $backup_path/* -mtime +30 -exec rm {} \;

#DB backup log
echo -e "$(date +%d-%b-%y %r ):ALERT:Database has been Backupped"
  >>/var/log/DB_Backup.log
